This 30-minute session  
answers the following:

—  
**What is SmartMove?**

—  
**Who should use it?**

—  
**How do I create a landlord  
account?**

—  
**How do I add properties?**

—  
**How do I screen  
applicants?**

—  
**What's the renter's role in  
the process?**

## TransUnion SmartMove offers:

### Immediate online access

No time-consuming paperwork and no lengthy approval process. It takes just minutes to create an account and you can begin screening immediately. All you need to get started is your potential tenant's e-mail address.

---

### Use it when you need it, pay as you go

There are no setup fees and no minimum use requirements. When it's time to screen an applicant, simply log in to your account and send your request. You get a criminal report and custom leasing recommendation for just \$25, and a full credit report for just an additional \$5.

---

### Choice of who pays

Each time you screen a tenant, you can choose to pay yourself or charge the transaction fee directly to the applicant. Either way, it's fast, easy and secure.

### Instant results

Until now, independent landlords like you haven't had access to the same advanced screening tools as the largest property management groups. With SmartMove, you get a full credit report, a comprehensive criminal background check and a custom leasing recommendation in minutes.

---

### Joint tenant recommendations

Have a group of applicants applying for a joint lease? No problem. SmartMove screens each applicant as an individual and provides a joint leasing recommendation. That way, if one applicant has a good rental history while another has a record of nonpayment, SmartMove analyzes the risk as a whole—taking the guesswork out of leasing to a group.

**Access the same screening as the largest property management groups.**
