### WHAT ARE ACV & RCV COVERAGES?

Your personal property is covered for either actual cash value (ACV) or replacement cost value (RCV). ACV pays what your property is worth today, considering age and condition. RCV replaces your items with new property of the same type, kind and quality without deducting for depreciation. So it's important to check that you have the correct types of coverage for your different possessions.

# VALUABLES

Your base policy provides limited (refer to your policy for limits) coverage for certain categories of items, like the valuables listed below. If the total value of all your items in each category adds up to more than the base limit and you have not yet added extra coverage, we'll want to discuss options for ensuring you're fully protected.
